Quality. Integrity. Complete Customer Focus.

These are just a few of the core values that we at Diesel Specialists, LLC hold dear. For over 35 years, our intense focus on the heavy duty Detroit Diesel engine market has provided us with a unique vantage point shared by few in our industry. We use this experience every day to bring our customers the highest quality product faster than anyone in the industry.

Whether it is providing a remanufactured Detroit engine for a quick turnaround or shipping one of our thousands of engine components, our entire focus is to provide you with quality products at great prices, on-time, every time.

Our Promise: Superior Customer Support for All Diesel Parts and Engines

Diesel Specialists, LLC provides total and complete support for some of the best heavy duty diesel engines including Detroit Diesel, Caterpillar, Cummins, Perkins, Deutz and Northern Lights. We are confident you will see that our combination of customer focus and technical expertise is amongst the best for these product lines. Whether you are looking for Detroit Diesel parts or complete engine packages, we have the knowledge and equipment to do it right.

When quality, pricing and service matter, no one performs better than Diesel Specialists, LLC.

Diesel Specialists, LLC. has over 35 years' experience rebuilding Detroit Diesel engines, following the strictest of remanufacturing procedures. First, engine cores are completely disassembled and all parts are cleaned in a chemical vat. Engine parts are then dispersed to our specialized workshops for inspection and remanufacturing.

Thorough Inspection of Detroit Diesel Cylinder Blocks

- Cylinder blocks are checked for surface cracks using a magnaflux procedure
- Cylinder bores, counter bores and crank bores are checked and machined if needed
- Water passages of the cylinder blocks are pressure tested
- Serial numbers, cylinder bore size and work performed is recorded before the blocks are released to the Production Department
- Crankshafts are checked for bends and cracks using a magnaflux procedure
- Crankshafts are measured and polished or machine ground to OEM specifications

Complete Examination of Detroit Cylinder Heads

- Cylinder heads are disassembled with all plugs removed and chemically cleaned
- Head castings are measured for thickness before and after being surfaced
- Castings are pressure tested with new injector tubes installed
- Valve seats are cut to specification on our computer controlled seat cutting machine which ensures proper valve to seat mating
- Cylinder heads are assembled using new valves, springs, guides, seals and cam follower rollers and pins
- Rocker arms and valve bridges are reclaimed or remanufactured as needed
- Cylinder heads are supplied with new plugs

Complete Remanufacturing of All Detroit Diesel Subassemblies

- Connecting rods are remanufactured with new bushings and all measurements checked utilizing state of the art equipment manufactured by Sunnen
- Blowers are completely remanufactured with new bearings and seals
- Fuel pumps and water pumps are remanufactured using new seals, bearings and shafts
- Fuel pumps are bench tested prior to release
- Camshaft end bearings are remanufactured using new bushings
- Oil pumps and valves are remanufactured using new valves and springs

Meticulous Rebuilding of Detroit Diesel Engines

- Engines are assembled by qualified technicians who verify the correct components and acceptable measurements of all remanufactured subassemblies and reclaimed components
- Engines are assembled using all new bearings, seals, gaskets and consumable parts
- Complete engines are tested to OEM ratings using a 2500 horsepower dynamometer
- Horsepower output, rpm, oil pressure, crankcase pressure and air box pressures are recorded along with engine specifications and supplied with a start up inspection report
- Engines are rust proofed with a red oxide primer and enamel coated paint

Diesel Specialists Guarantees Quality Remanufactured Engines and Parts

In order to provide you with the highest quality product, specific attention has been given to ensure that all proper procedures have been followed during assembly and that all specifications are those of the original manufacturer. Modification, installation, testing and maintenance of this product are the responsibility of the purchaser and should be performed in strict accordance with the original manufacturers service publications.

Thank you for choosing a Red Stick™ Remanufactured Product!

Core Refund Policy

Diesel Specialists, LLC offers a wide array of remanufactured products, all built to exacting OEM specifications and delivered with a one year warranty against defects in materials and workmanship.

All remanufactured products are sold with an accompanying core charge. This core charge is refundable to the customer's account when the following criteria have been satisfied. All core returns must be:

1. Received within 30 days of the original invoice date
2. Be rebuildable according to original equipment manufacturer's specifications
3. The same part number that was provided to the customer
4. Accompanied by a completed core return tag

Although Diesel Specialists, LLC is diligent about the processing of all core returns, we are allowed up to 30 days from receipt to adequately inspect all returns and process the proper credit amount. Should the core return be deemed non rebuildable, we will process the core according to the customer supplied instructions on the core return tag.

Remanufactured Warranty

In order to provide you with the highest quality product, specific attention has been given to ensure that all proper procedures have been followed during assembly and that all specifications are those of the original manufacturer. Completion, installation, testing and maintenance of this product are the responsibility of the purchaser and should be performed in strict accordance with the original manufacturer's service publications.

All remanufactured products are covered for a period of one year. This warranty covers repairs to correct any malfunctioning remanufactured product occurring during the warranty period resulting from **defects in material or workmanship**. To obtain warranty repairs, the defective or malfunctioning product must be delivered to **DSL** with a copy of the original invoice or repair order to validate the date of purchase. **DSL** may, at its discretion, replace rather than repair the remanufactured product. A reasonable time must be allowed to perform the warranty repair after returning the remanufactured product to **DSL**. The warranty period begins on the date of sale.

This warranty does **not** cover repairs due to accidents, misuse, storage damage, negligence, misapplication or modifications exceeding the manufacturer's specifications. Labor costs for product removal and reinstallation are not covered by this warranty. This warranty does not cover any economic loss, including without limitation, communication expenses, meals, lodging, loss of use of the engine or equipment, loss of time, inconvenience, cargo damage, extraordinary damages resulting from insufficient, or non-existence of, system protection (alarms, sensors, shutdown systems, etc.); or any other costs or expenses resulting from a defect covered by this warranty.

In order for warranty claims to be accepted, the purchasing customer's account must be current. Delinquent accounts must be brought current prior to acceptance of any claim.

This warranty is the only warranty applicable to **Red Stick™** remanufactured products and is in lieu of any other warranties expressed or implied, including any implied warranty of merchantability or fitness for a particular purpose. The performance of repairs is the exclusive remedy under this warranty. **DSL** does not authorize any person to assume or create for it any other obligation or liability in connection with these remanufactured products. **DSL** shall not be liable for incidental or consequential damages resulting from breach of this written warranty or any implied warranty.
